AS BOARD OF DIRECTORS APPOINTMENT POLICY

BACKGROUND AND PURPOSE

The purpose of this policy is to outline the process for student representatives to sit on and be appointed to committees of the Academic Senate, as well as other University Committees. This policy is intended to outline and expand upon the AS mission of shared governance, and provide an outlined procedure by which students can get involved through committee work.

POLICY STATEMENT

As the official voice of students at San Francisco State University, the Associated Students Board of Directors is consistently requested to appoint students to the various academic and university committees. This policy is to help provide structure and clear direction on how the appointments will be made.

APPLICABILITY OF THE POLICY

This policy applies to the appointment of student representatives to academic senate and university committees and should be consulted by any individual seeking guidance on the process. Specifically, this policy should be consulted by the AS Board of Directors, President, Vice President of Academic Affairs, and Vice President of Social Justice & Equity when applicable.

REQUIREMENTS

In all cases, student Board members must meet the minimum requirement to hold office as stated in the Bylaws.
Student-at-large representatives must be duly enrolled at San Francisco State University, and cannot be on academic probation to be appointed and remain on any AS or University committee. For clarity, student-at-large representatives do not need to meet the minimum requirements for student office holders outlined for student Board members.

In all instances, it is expected that members will report back to the AS Board of Directors of any decisions or developments that arise from their committee work, so that the Board can remain informed of developments throughout the campus community. The preferred method to receive updates can be determined by the AS President in collaboration with the VP Academic Affairs and VP Social Justice & Equity, but it is strongly recommended that written reports containing the should-know information be emailed to the President on a semesterly basis, so that this report can be included with reports during a Board meeting.

APPLICATION PROCESS

Applications for committee membership will vary depending on the nature of the committee, whether membership is a requisite of a Board member’s position (per the most recently updated Duties and Expectations Policy and/or Bylaws). Unless otherwise stated in policy or according to the judgement of the AS President, membership for University Committees, including the Academic Senate, should be made available to Board members first, to ensure that all members are able to meet the minimum requirements of holding office (including 2 AS Committees, and 1 University Committee). In order to ensure that student-at-large members have the opportunity to participate in shared governance, a public application for appointed positions will be made available via the AS website, and should be advertised on the AS Instagram/social media accounts. When appropriate, open positions may also be advertised via a mass email, sent to all students in partnership with the Dean of Students or SAEM.
